

Addendum 1

Northeast Texas Regional Mobility Authority

Roadside System Implementation and Maintenance

Site Visits to Toll 49

The following details the procedures for the February 4 and 5 Toll 49 site visits.

9:00 a.m.

Depart NET RMA offices, located at 1001 ESE Loop 323, Ste 420, Tyler, TX 75701

NET RMA will provide a passenger van for the site visit. Each firm is limited to three people. Please bring safety vests for each person.

Firms will have 15 minutes at each tolling location. You will have access to the roadside equipment cabinets. NET RMA will not close the roadway so observation of gantry mounted tolling equipment will be from the right of way only.

We anticipate completing the tour of five mainline gantries and four pairs of ramps in four hours.

We will return to the NET RMA offices. Participants may ask questions. However, only written questions and responses are valid.

Please advise Ron Fagan which day you will participate. rfagan@faganconsulting.com
