

Addendum 3

Northeast Texas Regional Mobility Authority

Roadside System Implementation and Maintenance

Clarification of language

1. A discrepancy exists between language in the RFP Scope of Work Section 3.9.4.2 Data Storage and Appendix J: Data Retention Guidelines. The last sentence in 3.9.4.2, "At least twelve (12) months of the above data shall be available online and for display and reporting in the TFH software," is deleted.
2. RFP Scope of Work Section 3.8.3, item 3 is changed as follow. "Capture images of the front and rear license plates (if present) of all vehicles that pass under a gantry."
