# NET RMA Partner NTTA Expands TollTag Access for Northeast Texas Drivers

TollTag customers can now travel more conveniently in seven additional states

TYLER, Texas — The North Texas Tollway Authority (NTTA), NET RMA's toll processing and customer service partner, has expanded TollTag access to participating toll roads in Pennsylvania, Illinois, Massachusetts, North Carolina, Indiana, Ohio, and Maryland.

The expanded network adds to existing TollTag access throughout Texas, Oklahoma, and Kansas, as well as most toll roads in Florida and Colorado, making it easier for TollTag customers to travel and pay tolls with the same account.

For Northeast Texas drivers, that means they can use the same NTTA TollTag on Toll 49 and on road trips around the country. Charges are automatically applied to the customer's existing TollTag account, eliminating the need to stop at toll booths or open separate toll accounts.

Customers do not need to opt in or make changes to their account to take advantage of the expanded TollTag network. TollTag accounts must be in good standing, and toll rates outside Texas are established by the tolling authority where the roadway is located.

The expanded access adds to the benefits of having an NTTA TollTag. In addition to convenient automatic payments, TollTag customers can save time and up to 50% compared with pay-by-mail customers.

For more information or to get an NTTA TollTag, please visit netrma.org/getatag.

**About the North East Texas Regional Mobility Authority (NET RMA)**
The NET RMA is an independent government agency created to accelerate the development of transportation projects in North East Texas. Our mission is to implement transportation solutions that will enhance the quality of life and the economic environment in our area. The NET RMA is governed by a 21-member board of directors that represent each of the 14 member counties: Bowie, Camp, Cass, Cherokee, Gregg, Harrison, Kaufman, Panola, Rusk, Smith, Titus, Upshur, Van Zandt and Wood. Texas RMAs were made possible

through an initiative passed by the State Legislature in 2001. The NET RMA was established in October 2004. For more information, visit NETRMA.org.
