

## TOLL 49 Segment 4 Project

The Segment 4 Project is the next segment of Toll 49 planned for construction. Segment 4 is environmentally clear and received a Record of Decision in April 2015. The Project extends from US 69 (north of Lindale) to I-20, a distance of approximately 6.6 miles. The new segment of Toll 49 will provide relief to existing US 69 through the city of Lindale.

The project will include the construction of two tolled lanes, construction of an additional frontage road bridge and potentially a mainlane bridge at the intersection between Toll 49 and I-20, bridges at FM 16, CR 4118, CR 431 and FM 849.

Additional information is available on the project website [www.civcastusa.com](http://www.civcastusa.com).

## Project Timeline

Construction activities on the Toll 49 Segment 4 Project are scheduled to begin in Spring 2016 and reach completion by Spring 2018.

### Project Timeline\*

#### **December 2015**

Pre-bid meeting

#### **January 2016**

Bid Opening

#### **Spring 2016**

Begin Construction

#### **Fall 2017**

Substantial Completion

#### **Spring 2018**

Full Project Completion
